CMS / Commerce: WordPress, WooCommerce, ACF, WP All Import, WPML

DevOps / Tools: Git, CI/CD, Vercel, Netlify, Postman, VS Code

Workflow: Agile / Scrum, Trello, Slack, Asana, Teamwork

WORK EXPERIENCE

Invisible Ink Co., Ltd. | 2021 - 2026

- Delivered 50+ web projects across new builds, enhancements, maintenance, and production support for retail, lifestyle, corporate, and campaign clients.
- Built retail and e-commerce functionality including site search, product filtering, product discovery flows, and integrations with third-party APIs.
- Improved website performance and Core Web Vitals, using Google PageSpeed/Lighthouse as a benchmark and achieving scores up to 100 where project constraints and the scoring rules at the time allowed.
- Created responsive and interactive brand experiences using GSAP, Spline, and Lottie while balancing animation quality, usability, and frontend performance.
- Structured maintainable frontend projects with Vite, Tailwind CSS, reusable components, Git workflows, CI/CD, and stable production deployment practices.

IDEA BRANCH Co., Ltd. | 2020 - 2021

- Developed and enhanced web experiences using React, JavaScript, WordPress, and custom plugins for client-specific requirements.
- Delivered event websites and healthcare/hospital websites, supporting responsive implementation, content workflows, performance, SEO, and ongoing updates.
- Improved internal development workflow and maintainability through reusable code structure and structured WordPress development practices.

Digital Think House Co., Ltd. | 2015 - 2020

- Developed corporate, campaign, and custom WordPress solutions from requirement gathering through implementation, launch, maintenance, and client support.
- Built an internal Mitsubishi portal supporting travel-related workflows, including expense reimbursement and overseas travel processes.
- Developed a participant data-management system for Work and Travel operations, including workflows used by IEE Thailand.
- Built clinic websites and location-based features using Google Maps API, alongside other client-facing systems and custom web functionality.
- Worked directly with clients and mentored 2 junior developers on WordPress development, coding practices, troubleshooting, and delivery workflows.

EDUCATION

Srinakharinwirot University | Bachelor's Degree in Computer for Communication | 2010 - 2014

College of Social Communication Innovation
